

3. To identify the way forward for the participatory development of projects for forest

Michelle also gave a powerpoint presentation on the types of forests found in Barbados and the legislative and management framework, which is attached as Appendix 4.

Regarding the policy and institutional framework, several

- Making a living (jobs): Monetary Reward
- Spiritual, morality, social welfare, Values, Belief
- Social responsibility
- SERVICE = Reward/Recognition
- Financial Investments
- Access to services
- Access to health services
- Freedom crime
- Personal satisfaction
- Trained/Qualified/Skills
- Assets (Finance, equipment etc)
- Access to resources

Participants then brainstormed the types of forest goods and services in Barbados. They identified services as provisioning (e.g. providin
